The opportunity to showcase your products and services in the largest consumer product show in Kansas only comes around once a year. Last year, over 250 of your competitors were there – exhibiting to more than 25,000 of your prime prospects!

Your competitors know that the Home Show is an excellent opportunity to showcase their products and give them face-to-face contact with more prospective customers than any other Wichita show. They also know, that WABA makes it easy and affordable to be an exhibitor and have already made their commitment to be a part of the Home Show. Plus they benefit from the thousands of dollars of promotional advertising WABA provides for the Home Show and the millions of dollars of economic impact the Show provides the City of Wichita and surrounding areas every year.

Your customers know about the Home Show, too. They know it's the one place they can go to get the largest window shopping experience in the state and comparison shop to their heart's content. Most of the crowd is made up of couples – so the decision-making team is definitely present.

Your customers and competitors will be there –
